## New Toilet

Dilakshan can do his day-to-day activity but was finding difficult to go to toilet, as his house did not have toilet facilities to suit his requirement as a special need child. This was observed and Vavunathivu Development Organization (VDO) constructed a toilet with ram facilities so that he can access to the nature of call independently. Provision of this toilet has helped the family enormously. Before having the toilet, mother had to carry him. Now with the ram facilities he can do things independently.

The family has a small home garden of vegetable in their house premise. Dilakshan help the mother in watering the plant. Due to his inability to go to school, VDO had supplied home-based education materials to him and the mother teaches his son at home. As an addition help, VDO contacted, "MENCAFEP"
